DO YOU ACTUALLY THINK THESE ARE REAL?

After seeing this image, I won't trust NASA and ISRO. I won't believe this computer graphics CGI and paintings.

1). When we drop the ball from a height of 2m in the earth which rotates at the speed of 1600km/hr, The ball falls vertically straight to the ground.

2). When we drop the ball from a height of 2m in the inside an aeroplane which is moving horizontally at speed of 216km/hr, The Ball falls straight back 22cm from where it should have fallen.

3).This proves earth is not rotating and bible also says that earth is immovable and it has foundation up to end.
